Dear Mr. Tarr,

On behalf of some of the most vulnerable residents in eastern NC, I beg you and the Department of Environmental Quality to IMMEDIATELY plan for at least 3 more public hearings along the proposed ACP corridor to address the economic development, health, safety and environmental concerns being raised, as well as claims and information submitted by the Atlantic Coast Pipeline (ACP, LLC) since the close of the original comment period. We ask that you take as firm a stance against the ACP as you have against offshore drilling. Both of these proposed projects would lock North Carolina into another generation of fossil fuel use, delaying the shift to more cost effective and cleaner energy sources, and the adverse impacts would greatly outweigh any benefits.

Thanks for your consideration.

Valeria Gist
